## Accelerates its sales Q2 2015 +130% growth

Villepinte, July 9th 2015 – DRONE VOLT, French leader on civilian drones, releases its sales for First semester 2015 (non audited). Once more, the young innovative company is taking full advantage of the current bull market for civilian drones for professional use and accelerates its growth rate.

'000 of euros	2014	2015	Variation
1 <sup>er</sup> Quarter	282	608	+116%
2 <sup>ème</sup> Quarter	374	859	+130%
1 <sup>er</sup> Semester	656	1 467	+124%

*Financial data not audited in French standards*

DRONE VOLT announces a new record turnover for a single quarter : + 130 % on Q2 2015, with 0,9 millions sales in 3 months. This is on top of the company's growth of +116% on first quarter and 40% for the year 2014.

Thus, during the first 6 months of 2015, DRONE VOLT achieves almost 1,5 million euros in sales (+124% compared to 1<sup>er</sup> semester 2014), which is almost equal to the amount of sales of the entire year 2014 (1,7 million euros). In sequential, second Quarter 2015 is growing +41% compared to 1<sup>er</sup> Quarter 2014.

This performance is remarkable as DRONE VOLT does not enjoy the revenues of its Scandinavian subsidiary yet. DRONE VOLT SCANDINAVIA is about to open.

Thanks to a drastic financial management of working capital, to the successful capital increase achieved end of March, matched by bank financing of another Euros 300 000 over 5 years without covenant, DRONE VOLT enjoyed end of June 2015 a treasury of 0,2 million euros. This amount does not include a new medium-term financing placed beginning of July 2015.

**Next appointment : First semester 2105 results 2015 will be announced the week of September 7th 2015.**
