

## DRONE VOLT

---

### takes home an award at the BATIMAT 2017 Innovation competition

---

Villepinte, September 28, 2017

**DRONE VOLT, French industrial drone manufacturer, receives a silver Innovation Award for its drone HERCULES 10 SPRAY. The Grand Jury of the “Mondial du Bâtiment” Innovation competition 2017 awarded Drone Volt in the “Worksite equipment & Tool” category.**

DRONE VOLT has just been awarded for its drone HERCULES 10 SPRAY during the Innovation Competition organized by the “Mondial du Bâtiment 2017”.

DRONE VOLT will showcase its industrial drone solutions at BATIMAT “Mondial du Bâtiment” from the 6<sup>th</sup> to the 10<sup>th</sup> of November 2017, Parc des Expositions de Villepinte, stand E17 Hall 6.

Launched in January 2017 at the LAS VEGAS (USA) CES, this drone is a professional device intended to be used in the construction industry for spraying liquids. It allows hard to reach or dangerous surfaces to be treated. Easy to use and set up, in just a few minutes, it reduces equipment handling and the human risk associated with height interventions.

This sprayer drone is available in three models: Regular SPRAY, Autonomous SPRAY and High-Pressure SPRAY. It is designed and manufactured in the DRONE VOLT production factory in Villepinte (Paris region, France).

Olivier Gualdoni, DRONE VOLT Chairman and CEO, welcomes this new trophy:

*“Receiving this award from experts in the construction industry is a credit for our HERCULES SPRAY drone. It demonstrates the acceptance of the entire construction sector towards this technical solution. A solution which was developed by our engineers to meet the specific concerns of construction professionals.*”

*The Global Building Innovation Award reinforces our strategy which was set in the last few months to provide remote R&D services for large accounts. Our design department accompanies them in creating tailored professional drones that meet their core business requirements in the form of billed studies. This type of demand is growing within DRONE VOLT.”*

**Next press release: results for first half of 2017, on the week of October 16<sup>th</sup>, 2017**
