

## DRONE VOLT

---

### Entry into the South African market

---

Villepinte, October 10, 2018

**DRONE VOLT, a French aeronautics manufacturer specializing in professional civilian drones, is setting up operations in South Africa alongside one of its distributor partners benefiting from a strong presence in sub-Saharan Africa.**

This announcement was made in connection with the eighth edition of the Africa Aerospace and Defence (AAD 2018) expo, which ran between September 19 - 23 at the Waterkloof air base in the foothills outside of Pretoria.

Africa, which is showing among the highest growth rates in the world, is a prime target for DRONE VOLT and its solutions in terms of security and surveillance. It is with this in mind that the partners have decided to set up a showroom, a DRONE VOLT ACADEMY training center and a maintenance center. In this manner, the Group will be deploying its complete offer associating innovative drones and value-added services.

With 55 million inhabitants and a GDP of 370 billion dollars, South Africa is the second richest country on the African continent. Most importantly, South Africa offers very attractive commercial opportunities for DRONE VOLT in the strategic security and surveillance sectors in both urban settings and at mining sites.

DRONE VOLT believes that this partnership will make a rapid contribution to the already strong growth in its international sales, which as of end June 2018 represented 61% of the Group's total billings.

#### **About DRONE VOLT**

---

Founded in 2011, DRONE VOLT is an aeronautics manufacturer specialized in professional civilian drones with operations in France, Belgium, the Netherlands, Canada, Denmark, the United States, Switzerland and Indonesia. A global partner, DRONE VOLT offers its clients turnkey business solutions including different services and the training of drone pilots.

The DRONE VOLT Group, a member of GICAT (French land and air-land defense and security industry group), recorded sales of 7.8 million euros in 2017.

DRONE VOLT's customers notably include government administrations and industrial groups such as the French army, the French Ministry of Defense, Engie, Total, Bouygues ES, ADP, the Air Transport Gendarmerie (GTA) and international government agencies.

DRONE VOLT has been designated as an "Innovative Enterprise" by Bpifrance.
