### New delivery of a HERCULES 10 drone in the United States

---

Villepinte, January 21, 2019

**DRONE VOLT, a French aeronautics manufacturer specializing in professional civilian drones, has announced a new delivery of a HERCULES 10 drone in the United States.**

Only a few days after the announcement of an order from a government agency in the United States (cf. press release dated January 9, 2019), DRONE VOLT has announced its first delivery of a HERCULES 10 drone to a group of US energy producers backed by one of the largest financial institutions in the United States.

This drone will be initially used in the training of pilots for the inspection of high voltage power lines. A purchasing program involving several dozens of HERCULES 10 drones could follow over the coming months. Given its reliability, robustness and payload capacity of 10 kg, the Hercules 10 is the best adapted drone for this type of mission.

*“The US energy producers are a strategic market for DRONE VOLT”, indicated Olivier Gualdoni, the chairman / CEO of DRONE VOLT. “The high voltage power line network, which is over 300,000 km long, is aging and sometimes in poor condition and requires increasingly frequent and increasingly detailed inspections.”*

---

**Next press release: 2018 annual sales, January 23, 2019**

#### About DRONE VOLT

---

Founded in 2011, DRONE VOLT is an aeronautics manufacturer specialized in professional civilian drones with operations in France, Belgium, the Netherlands, Canada, Denmark, the United States, Switzerland and Indonesia. A global partner, DRONE VOLT offers its clients turnkey business solutions including different services and the training of drone pilots.

The DRONE VOLT Group, a member of GICAT (French land and air-land defense and security industry group), recorded sales of 7.8 million euros in 2017.

DRONE VOLT's customers notably include government administrations and industrial groups such as the French army, the French Ministry of Defense, Engie, Total, Bouygues ES, ADP, the Air Transport Gendarmerie (GTA) and international government agencies.

DRONE VOLT has been designated as an “Innovative Enterprise” by Bpifrance.

**DRONE VOLT is listed on the Euronext Growth market in Paris:**
