**DRONE VOLT, an expert in onboard artificial intelligence and manufacturer of professional civilian drones, will be present at the International Paris Air Show (to be held at Le Bourget through June 23, 2019) at the stand of its partner EUROTRADIA (Building O).**

EUROTRADIA, a group with nearly 100 years of experience assisting companies in their international projects essentially in the aerospace and defense areas, regularly works with DRONE VOLT in its operations in the Middle East and Africa.

At the EUROTRADIA stand, DRONE VOLT will notably present its HERCULES 20 drone carrying the NERVA®, a multi-mission terrestrial mini-drone produced by NEXTER ROBOTICS. The combination of a flying solution with a rolling solution makes possible surveillance missions in hostile zones.

*"We are very grateful to the EUROTRADIA group for its help in increasing the recognition of DRONE VOLT's expertise, both here at Le Bourget but also on a day to day basis in our development on international markets,"* indicated Olivier Gualdoni, chairman / CEO of DRONE VOLT.
