

DRONE VOLT

New ALTURA ZENITH order from VIETNAM ELECTRICITY (EVN)

Villepinte, July 16, 2019

DRONE VOLT, an embedded artificial intelligence expert and manufacturer of professional civil drones, has announced a new order from VIETNAM ELECTRICITY (EVN).

Only a few months after having delivered the first two ALTURA ZENITH drones equipped with PENSAR cameras to EVN, AERIALTRONICS, the Dutch subsidiary of DRONE VOLT, has announced a new order for three ALTURA ZENITH drones.

Through this order, EVN, the principal electricity supplier in Vietnam, is reinforcing its fleet of ALTURA ZENITH drones used in the surveillance of the 20,000 km of its electricity transmission network. This order totals over €100,000. Additional orders are currently under negotiation and could be finalized over the very near future.

"Drones are increasingly serving as replacements for inspections by helicopter," noted Olivier Gualdoni, chairman / CEO of DRONE VOLT. "This order reinforces our list of repeat customers and opens the door to even larger orders in Asia, the fruit of our past investments in the major international trade shows. This order additionally demonstrates the quality of our solutions and the increasing penetration of DRONE VOLT at its major institutional clients."

Upcoming Press Release: Q2 2019 sales on July 24, 2019
