

DRONE VOLT

Astonishing Orders in the Summer of 2019

Villepinte, 3rd of September 2019

DRONE VOLT, embedded Artificial Intelligence expert and professional civil drones manufacturer, announces its all-time record of orders in the summer of 2019.

For the first time since its creation, DRONE VOLT has surpassed one million euros of sales of both its products and added-value services in the months of July and August 2019 only. This record is particularly noteworthy, considering that summer months usually have limited commercial activity.

This hectic period provides great visibility for the turnover of the next few months and allows the group to be confident about a promising end of the year.

For Olivier Gualdoni, CEO of DRONE VOLT, *'This never seen before level of activity confirms yet again the rising popularity of and trust in our products. The orders are but the tip of the iceberg. They represent the first validation of ongoing negotiations totaling over 15 million euros of potential turnover.'*

Next Press Release : First 2019 Semester Results – 18th of September 2019
