

DRONE VOLT

New success for the ALTURA ZENITH in Europe

Villepinte, December 17, 2019

DRONE VOLT, an embedded artificial intelligence expert and manufacturer of professional civil drones, has announced a new order in Europe.

DRONE VOLT BENELUX, the group's Belgian subsidiary, has been chosen to supply a solution based on an ALTURA ZENITH drone equipped with a very high technology system. With its payload capacity of 3 kg, this "all carbon" drone is the fastest drone in the DRONE VOLT line.

This initial order, totaling nearly 100,000 euros, could be followed by a second identical order at the beginning of 2020. DRONE VOLT would in this manner add to its repeat clientele within a broad range of major companies and service providers.

"This new customer has now joined our list of nearly 100 clients," indicated Olivier Gualdoni, chairman / CEO of DRONE VOLT. "This reinforces to our confidence regarding 2020, when our rising business volume will be supported by industrial capacities that could allow us to double our production without significant additional investments."

Next press release: Q4 2019 sales, January 22, 2020
