

DRONE VOLT

New order in the UK

Villepinte, February 6, 2020

DRONE VOLT, an embedded artificial intelligence expert and manufacturer of professional civil drones, has announced a new order in the UK.

This order, recorded by AERIALTRONICS, DRONE VOLT's Dutch subsidiary, involves an ALTURA ZENITH drone equipped with a PENSAR intelligent camera for the inspection of sensitive sites.

This order represents a new customer in the energy sector, thereby demonstrating the pertinence and potential of the DRONE VOLT solutions in this area. Rather inexpensive, easily deployable and zero emission, these solutions are meeting with growing success among worldwide sector players.

This initial order, totaling close to 100,000 euros, could be followed by a second similar order over the coming weeks.

"This order involves a new customer for the DRONE VOLT group, thereby demonstrating the good sales momentum at present in the energy sector," indicated Olivier Gualdoni, chairman / CEO of DRONE VOLT. *"We expect to announce other orders of this type over the near future."*
