## New order in Hungary

---

Villepinte, February 20, 2020

**DRONE VOLT, an embedded artificial intelligence expert and manufacturer of professional civil drones, has announced a new order in Hungary.**

This order involves three HERCULES 20 drones and one HERCULES 2 drone and comes from our distributor in Hungary, which already ordered four drones in 2019.

This distributor, which specializes in agricultural machinery, is promoting the use of drones, notably for missions involving the targeted spraying of agricultural treatments, thereby enabling a reduction in dispersed volumes. This “green” approach makes all the more sense when based on DRONE VOLT’s “zero emission” solutions.

Thanks to strongly growing demand, this group should continue to make purchases from DRONE VOLT.

“Recurring orders from our largest customers are one of the keys to our growth,” indicated Olivier Gualdoni, chairman / CEO of DRONE VOLT. “They demonstrate the quality of our high margin solutions and the pertinence of our business model”.

### About DRONE VOLT

---

Founded in 2011, DRONE VOLT, is an expert in onboard artificial intelligence and manufacturer of professional civilian drones with operations in France, Belgium, the Netherlands, Canada, Denmark, the United States, Switzerland and Indonesia. A global partner, DRONE VOLT offers its clients turnkey business solutions including different services and the training of drone pilots.

The DRONE VOLT Group, a member of GICAT (French land and air-land defense and security industry group), recorded sales of 7.1 million euros in 2019 (non-audited figures).

DRONE VOLT’s customers notably include government administrations and industrial groups such as the French army, the French Ministry of Defense, Engie, Total, Bouygues ES, ADP, the Air Transport Gendarmerie (GTA) and international government agencies.

DRONE VOLT has been designated as an “Innovative Enterprise” by Bpifrance.

**DRONE VOLT is listed on the Euronext Growth market in Paris:**
